DECLARATION OF CONFORMITY NO. 2024/530

20-03-2024

Product	Lug caps for glass jars							
Diameter	Ø82	Ø82	Ø82	Ø82	Ø82	Ø82	Ø82	Ø53
Type	RTS	RTS	RTS	RTS	RTS	RTS	RTS	RTS
Quantity, pcs	174250	30600	190400	105000	101500	90000	45000	13290
Design/Colour	White 0G 4aus	White 0G 4aus	Gold 0G 4aus	White 0G	Honey 2 0G	Black 0G	Gold 0G	Black
Batch Number	298959	335338	335338	380298	380401	376103	375891	365923
Date of Manufacture	30-02-2024	05-02-2023	05-02-2023	04-03-2024	05-03-2024	31-01-2024	31-01-2024	27-10-2023

Used for Pasteurisation Temperature ≤100 °C Time 60 min
Types of Products Acidic, water-based and fat products

Metal lug caps are manufactured in accordance with the requirements of the quality, environmental protection and BRCGS Packaging materials management system implemented by UAB Elmoris, which complies with the EC Good Manufacturing Practice Regulation No. 2023/2006 - Commission Regulation, published on 22 December 2006, for good manufacturing practice for materials and articles intended to come into contact with food.

The lug caps correspond to the specification requirements of the Commission Regulation (EU) No. 10/2011, published on 14 January 2011, for plastic materials and articles intended to come into contact with food with all amendments and the Regulation (EC) No. 1935/2004 of the European Parliament and Council, published on 27 October 2004, for materials and articles intended to come into contact with food.

According to 10/2011 regulations, three simulants (A, B and D2) covers all types of food. With reference to Article 18(6) of Regulation (EU) No 10/2011 please note that the results of specific migration testing obtained in food shall prevail over the results obtained in food simulants. This Confirmation of Compliance refers to the cap, considering prescribed simulation test conditions. Therefore the food business operator is required to ensure compliance of the finished packaging (filled container) under actual food processing conditions. Compliance of the finished packaging with overall and specific migration limits depends on various factors which are beyond the control of Elmoris.

Best before 2 years from the date of manufacture. This date is indicated on the package boxes.

Storage conditions: temperature from +5 to +35 °C, relative humidity under 70%.

Technical data sheets are compiled based on batch numbers.

Notes:

1. The accompanying documents shall not be changed until the technology or raw material for the manufacture of the metal lug caps has been changed.

Head of External Quality Process
Tomas Zdanevičius
